

The 2006 Michigan Commission of Agriculture

The Michigan Commission of Agriculture is a bipartisan group of citizens responsible for establishing policies for the Michigan Department of Agriculture (MDA). The primary role of the commission is to establish the priorities that govern MDA, appoint the department director, and approve the rules and regulations promulgated by the department.

Members of the five-seat commission are appointed by the governor and confirmed by the senate. Commissioners serve four-year, staggered terms, and only three may be from the same political party.

The commission meets on a regular basis and meetings are open to the public. Those interested in observing or discussing issues under the commission's jurisdiction are encouraged to attend. For more information about the Commission of Agriculture's meeting schedule or agenda, contact:
